No. 8132

DATED BANGALORE, 29th may 1909

From

THE PLAGUE COMMISSIONER IN MYSORE.

To

The Secretary to the Government of Mysore, Revenue and General departments.

SIR,

I have the honor to bring to the notice of Government that in several towns and villages, lately inspected by me, there has been a tendency to allow rebuilding on sites from which houses had been removed after being condemned by the Plague authorities. The rebuilding had, in some instances, been permitted without proper consideration and by

by authorities incompetent to give an opinion on sanitary matters. The good work done during the Plague season at so much cost to the State will be nullified if rebuilding is allowed to go on without proper control. I would therefore request that a circular order may issue to the Deputy Commissioners of Districts and Presidents of Municipal and Local Fund Boards enjoining on them the desirability of seeing that no house is allowed to spring on sites from which houses had

ad been removed under
e Plague Regulations unl
: local Sanitary authority
as certified that re-
uilding may be permitted
nd that when such per-
ission is given, the
onditions imposed by
Sanitary authority are
trictly attended to.

I have the honor to be

Apte Secy & BB.

Is there anything in the Municipal or Sanitation Regulations, or in Rules having the force of law, under which an order of this kind can be legally passed & enforced?

Please see ss. 148 & 151 of the Bangalore Municipal Regns (which, however, restrict the interference of the Pres.t-s matters affecting the levels of foundations & lowest floors), and Rule 3 of Section III of the Village Sanitation Rules.
